DETAILED ACTION

Drawings

1. Figure 1-6 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

2. Claims 1 and 8 are objected to because of the following informalities: on line 1, please delete "the" before "detection".
3. Claims 5 and 12-14 are objected to because of the following informalities: on line 6, please change the semicolon to a comma after "chosen".
4. Claims 8-10 and 15 are objected to because of the following informalities: though claims are allowed to have figure numbers, it does not hold any patentable weight. Therefore, in claim 8, recitation: "6i0" is objected.
5. Claims 12 -14 are objected to because of the following informalities: These claims are dependent upon independent claim 1, which is a method claim. However, claims recite "device" instead.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claims 3-7 and 11-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

8. Regarding claim 3, the phrase "bringing about" renders the claim indefinite. See MPEP § 2173.05(d).

9. Regarding claims 5, 7, 12-14, the phrase "if" renders the claim indefinite. See MPEP § 2173.05(d).

Claim Rejections - 35 USC § 101

10. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-7 and 11-14 are rejected under 35 U.S.C. 101 because of lack of utility and no practical application in the claims.

Allowable Subject Matter

11. Claims 8-10 and 15 would be allowable if rewritten to overcome the objections, set forth in this Office action.
12. The following is a statement of reasons for the indication of allowable subject matter:

None of the prior art tech or suggests a synchronization and detection in frequency hopping system to store the K greatest values for a given frequency as well as their position; a combination device enabling the position by position combining of the K greatest values; a comparator receiving the greatest value and compare it with a threshold value.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
